

Cyfax Extended Threat Intelligence

Protect Your Organization Beyond the Dark Web

The Cyfax Extended Threat Intelligence Snapshot Report offers a comprehensive overview of your organization's cyber risk exposure. Unlike traditional reports, Cyfax extends beyond the dark web, providing insights into compromised credentials, potential data exposures, and critical security configurations such as email settings and exposed external ports.

Key Features:

Wide Range of Threats:

Monitors risks across various channels including hacker forums, encrypted chat rooms, and marketplaces.

Real-time Alerts: Provides

real-time alerts backed by certified Threat Intelligence analysts for actionable insights and immediate remediation strategies.

Comprehensive Monitoring:

Includes scanning of publicly accessible websites, external ports, and in-depth analysis of vulnerabilities.

Value Proposition

Cyfax offers unparalleled protection by integrating data from thousands of sources to ensure a broad and accurate assessment of your organization's security posture. With Cyfax, you receive:

- **Extensive Coverage:** Coverage across a wide range of external threats, not limited to the dark web.
- **Actionable Insights:** Immediate recommendations and strategies to mitigate identified threats.
- **Continuous Monitoring:** Ongoing surveillance to identify and address potential vulnerabilities promptly.

Why Choose Cyfax:

Real-time Intelligence:

Stay ahead of threats with real-time data and alerts.

Expert Support:

Benefit from insights and support from certified analysts.

Comprehensive Reports:

Detailed reports that include data from multiple sources for a well-rounded view of your security posture.

System Alerts and Subscriber Benefits

How Cyfax Keeps You Informed Real-time Alerts for Global Subscribers

Proactive Threat Intelligence: Cyfax ensures that you are always informed about the latest threats. Our system continuously scans for new Indicators of Compromise (IOCs) and areas of concern, providing timely alerts to our global subscribers. Here's how it works:

01

Continuous Monitoring: Our platform constantly scans various sources, including dark web forums, encrypted chat rooms, and public websites, for any new threats or vulnerabilities.

02

Immediate Alerts: Subscribers receive immediate alerts whenever a new IOC or area of concern is detected. This enables you to take prompt action and mitigate risks before they escalate.

03

Actionable Insights: Each alert is accompanied by detailed, actionable insights from our certified Threat Intelligence analysts. This includes recommendations for remediation and strategies to enhance your security defenses.

Stay Ahead with Cyfax

Global Coverage:

Receive alerts no matter where you are, ensuring your organization is always protected.

Detailed Reports:

In-depth reports that provide a comprehensive view of your organization's threat landscape.

Expert Analysis:

Access to expert analysis and support to help you understand and respond to threats effectively.
